**California Health Collaborative Registry Services**

The California Health Collaborative, a nonprofit corporation providing innovative health programming statewide is seeking a full-time Abstracting Specialist with the choice of working in a home-based office or in our Fresno based office.

This position requires an independent, articulate, assertive self-starter who is passionate about improving the health and wellbeing of cancer patients by collecting cancer data that can be used by researchers to find the causes and cures of cancer. The registry, formally the regional representative of the California Cancer Registry for Regions 2 and 6, is responsible for reporting data
on cancer cases for more than 50 facilities throughout northern and central California.

This position will be responsible for: identifying potential cases through casefinding sources such as disease indices, pathology reports, radiation therapy logs and other sources provided by multiple facilities and abstracting all reportable cases as defined in Volume One of the California Cancer Registry. Responsible for transmitting the completed cases to the Cancer Registry of Greater California (CRGC) in a timely manner.

Duties and Responsibilities:

- Perform casefinding following the California Cancer Registry (CCR), SEER and in some instances, the Commission on Cancer (CoC) for reportability for all assigned facilities using disease indices, pathology reports, radiation therapy logs and any other available sources. Create a list of suspense cases for each facility.
- Abstract all reportable cases per CCR, SEER and if applicable, CoC guidelines with a 97% accuracy rate or above.
- Comply with Timeliness requirements by completing and transmitting all applicable cases to the CRGC within 6 months of date of admission for each case on a monthly basis unless otherwise requested.
- Prepare lists of cases completed and transmitted for billing purposes on a monthly basis.
- Other duties as assigned.

Required Qualifications:

- Certified Tumor Registrar (CTR)
- Three or more years of experience working in a California cancer registry setting
- Proficiency in the use of CNExT software including creating lists and reports
- Must have knowledge of and experience with medical terminology, anatomy and physiology, abstracting principles, coding and staging rules utilizing ICD-O-3, SEER Extent of Disease, AJCC TNM staging and Collaborative Staging, and CNExT software.
- Ability to work independently, solve practical problems.
- Ability to communicate effectively in both written and oral form.
Ability to travel and, when necessary, attend out of town meetings, conferences, and data collection activities which would require overnight travel

If interested, please submit your resume and cover letter to Emma Pimentel at epimentel@healthcollaborative.org. The California Health Collaborative is an Equal Opportunity Employer. Competitive compensation package provided. This position is open until filled.

KAISER PERMANENTE – DIVISION OF RESEARCH
NORTHERN CALIFORNIA REGIONAL OFFICES
OAKLAND (THREE POSITIONS)

The Kaiser Permanente Northern California Cancer Registry is seeking three qualified individuals (CTR’s) for the position of Cancer Registry Analyst. The candidates will support six new CoC accredited cancer programs in our Northern California Region. The jobs are based at our single, consolidated, Regional Cancer Registry at the Division of Research in Oakland. If interested, please apply directly online via www.jobs.kp.org. If you have questions, please contact recruitment consultant Lea.Borromeo@kp.org or Michael.Oehrli@kp.org.

Duties:
The responsibility of the Cancer Registry Analyst is to provide regional cancer registry support to facility Cancer Committees and Cancer Liaison Physicians, and maintain cancer registry CoC Standards necessary for a facility to pass and maintain CoC Cancer Program Accreditation. Kaiser Permanente utilizes a different regional model for cancer registry operations. Tumor boards, Cancer Committee, and other tasks are the separate responsibility of the facility-based Cancer Program Manager. This is not a primary abstracting position and will require infrequent travel to the facilities. Duties may include, but are not limited to; Database Quality Control, Recurrence Tracking, Treatment Analysis, NCDB Call for Data, Physician Quality Control, Cancer Committee Semiannual Report-Outs, Special Studies, Quality and Accountability Measures, and Regional Cancer Registry database support.
Required Qualifications:
- Certified Tumor Registrar (CTR)
- Three or more years of analytical (CNExT reports) and/or consulting (contracting) experience in a setting wherein data submission to maintain a statewide/national cancer registry was performed.
- Three or more years of experience synthesizing and analyzing data and interpreting quantitative/qualitative analysis for Cancer Committee/Registry utilizing cancer registry software.
- If recently CTR-certified, an AS Degree or Certificate of Achievement from an NCRA-approved Cancer Information Management program may substitute.

Preferred Qualifications:
- AS Degree in Cancer Information Management or Bachelor’s Degree in anatomy, biology, physiology, public health, science or chemistry.
- Three or more year’s work experience in departments involved with the diagnosis and/or treatment of cancer (including, but not limited to cancer registry).
- One year of work experience in an ACoS Cancer Program Accredited health care facility.
- One year or more work experience using cancer registry software such as CNExT for report production and presentation of statistics to the Liaison Physician (CLP) and Cancer Committee.

Location:
The Kaiser Permanente Northern California Cancer Registry is a consolidated regional cancer registry serving all 21 medical centers of Kaiser Permanente’s Northern California Region. Based at the Division of Research, Oakland Regional Offices, the registry serves as a comprehensive resource for numerous cancer research projects and investigators, and is just one of many components of a well-known, multidisciplinary program for comprehensive health care research. The Division of Research is located in downtown Oakland, highly accessible via public transit, and adjacent to the 19th Street Oakland BART station. This position offers a competitive salary and benefits package.
The CCRA Job Bureau is published monthly and includes a telephone hotline that operates weekdays (Monday through Friday) from 9:00am – 3:30pm at (916) 779-0275. The Job Bureau, sponsored by the California Cancer Registrars Association provides an opportunity to target job searches in the cancer registry field. Hospitals and other medical facilities are encouraged to list their job openings.

The fee for listing in this publication is $150.00 per position for the first month and $75.00 for each subsequent month.

Please contact Kyle L. Ziegler, CTR at (916) 779-0275 or email to kziegler@crgc-cancer.org

The deadline for inclusion of a job opening is the 27th of the month.
