

A warm “shout out” to our amazing UC San Diego Cancer Registry team! Miss you Linda W. <3

~Karla, CTR

Sending a shout out to my fantastic Cancer Registry team at MarinHealth Medical Center! It has been a year of change and you have handled everything with professionalism and grace. We are fortunate to have such a great team.

A BIG THANK YOU to Joanne Sanders, Michelle Bob and Abby Saephan.

Jenny Shaw, CTR

Shout out to the CCRA, CRGC, NCRA & NAACCR!

Shout out to Kelli Olsen!

Shout out to Linda Jund! (Oncology N Sync) Patricia Smith & Regina Weber!

Shout out to Louise and Bill Schuman!

Shout out to my fabulous colleagues at UCI! Liz Adams!

**Extra** shout out to Vicky Guardado!

A HUGE shout out to Providence St. Jude's AMAZING CDM department, especially my manager Sue Vitt who is the BEST manager anyone could ever work with. I cannot begin to express my gratitude. I am truly blessed!!

Shout out to Magnolia Saenz, for wearing a clear mask so I can read her lips & she is always willing to accompany me around the Medical Center and navigate the mask world for me! (when you're deaf and rely on lip reading, it's frustrating and sometimes impossible to function in a masked world! ) Shannon Nieto who makes sure I understand what's going on, makes sure I'm never left out, and is always willing to navigate for me as well! Thank you, Ladies!! I appreciate it more than you will ever know!

Shout out to Shelley Lindsey, Martha Curl and Mayra Llamas!

Shout out to Microsoft Team's "caption" setting! 😊

Finally, a big shout out to all CTR's for all of their hard work and dedication. I know that most people have no idea how much we do and what we do, no matter how we try to convey our profession, but we really do make a difference in our own quiet way. 😊

[Sharon Kantarovich, CTR](#)

## **HAPPY 2021 NATIONAL CANCER REGISTRARS WEEK**

The Greater Bay Area Cancer would like to recognize our dedicated cancer registrars in our community and the Registry Operations Unit for their continued commitment to complete, high quality cancer data. It takes all of us working together to provide a comprehensive data source that will be the foundation for cancer surveillance, research, prevention and control interventions that will benefit cancer patients.

**Thank you for your hard work and unparallel excellence throughout the year.**

Sincerely,  
Scarlett Lin Gomez, Principal Investigator  
Iona Cheng, Co-Investigator  
Salma Shariff-Marco, Co-Investigator  
Kathleen Davidson-Allen, Director, Registry Operations Unit
